I am Tim Hutchinson from White Bear Lake, Minnesota. I have a well-documented civil rights matter involving misconduct by a church youth pastor, a religious institution, serious attorney misconduct, and systemic failures and corruption within the Ramsey County court system that resulted in the deprivation of my constitutional rights.

This has resulted in;

Ending a 31-year marriage. Lost our family home of 24 years. Ruined an otherwise amazing relationship with my daughter, then was barred from her wedding. In April 2026, she brought the first grandchild into the world — and I have not been allowed to see either of them (I literally do not know my granddaughter's name). Hospitalized for suicidal ideation. Developed a heart condition from sustained, relentless stress. This situation has ruined my career.

I've prepared a comprehensive case package outlining five years of documented harm - including emotional, financial, reputational, and due process violations - and I am seeking a civil rights or federal litigation firm capable of evaluating the matter. I have organized all evidence, communications, court records, witness information, and supporting documentation and I'm ready for an initial consultation.

This is a serious, time sensitive case with multiple viable federal / local claims, and I would appreciate the opportunity to speak with counsel.

Please see www.RamseyCountyCorruption.com - to view the Attorney Overview Package, scroll to the bottom of the home page and click the link for that information.

Thank you,

Tim Hutchinson
